## ICON

Design: Peter Christian, 1995

Icon is a luminaire projecting images, colours and graphics on a curved polycarbonate surface. A decorative light fitting for restaurants and clubs, reception areas, corridors, retail display, exhibition and domestic environments.

### ICON IMAGE

Images to client's requirements may be produced. Icon image uses silkscreen, digital printing or vinyls depending on production numbers and type of artwork.

### ICON ONE

Single or multiples of images to client's requirements on paper or film encapsulated between clear and opal polycarbonate shades. Images easily changed over.

### ICON LONG

Gels in combinations of client's choice to give unique colour effects. Vinyls, digital printing and image encapsulation also available.
